Brown Deer

2016

The Zoning & Planning Specialist processed another completed registration application and fee submission, bringing the number of registered vacant commercial and residential properties to 18. The Community Services Department is also consulting with Village counsel to determine how feasible it might be to pursue retroactive registration and fee payment from lenders who have transferred ownership of the property to a newer owner, yet failed to register vacant properties while owning them.

LIBRARY UPCOMING WEEK'S ACTIVITIES:

- ★ **Disney Movie Afternoon!** –Tuesday July 5th @ 3:30- Grab your friends and enjoy *Princess and the Frog* at the library. This movie is rated G. Feel free to bring your own snacks, popcorn and beverages.
- ★ **Teen/Tween Trivia Night!**–Wednesday July 6th @4:00—Take the ultimate trivia challenge! Each round of questions will cover music, movies, books, pop culture, or other current happenings. And, yes, there will be snacks and prizes.
- ★ **Adult Afternoon Movie!** - Thursday July 7th @2:00-Grab a friend or two and join us for a film. There is no need to sign-up in advance. We will be showing *RICKIE AND THE FLASH: In this unconventional yet heartwarming family drama, an aging rocker (Meryl Streep) returns home to her estranged family after years on the road following her dreams, and must face the music as she tries to make things right with her loved ones. Cast: Meryl Streep, Mamie Gummer, Kevin Kline, Rick Springfield, Audra McDonald, and Sebastian Stan.*

Don't forget to participate in the Summer Reading Program! All ages are encouraged to participate for awesome prizes and grand prize raffles! It is free and any and all books you read or listen to count towards your reading goals! For more information, click on the links for each age group:

come!

NORTH SHORE HEALTH DEPARTMENT

Did You Know?

Zika Virus Disease (Zika) is a disease caused by the Zika virus, which is spread to people primarily through the bite of an infected *Aedes* species mosquito. The most common symptoms of Zika are fever, rash, joint pain, and red eyes. The illness is usually mild, with symptoms lasting for several days to a week after being bitten by an infected mosquito. People infected with Zika usually do not become sick enough to go to the hospital. Due to the mildness of the disease, many people may not realize they have been infected. However, Zika infection during pregnancy can cause serious birth defects, including microcephaly and other neurological disorders.

As of June 9, 2016, in the US states and the District of Columbia, there were 234 pregnant women reported to the US Zika Pregnancy Registry, 3 live-born infants with birth defects, and 3 pregnancy losses with birth defects. Although these outcomes occurred in pregnancies with laboratory evidence of Zika virus infection, we do not know whether they were caused by Zika virus infection or other factors.

Consider the risk of Zika when making your summer vacation plans. If you are traveling to an area with Zika, be sure to follow CDC recommendations to stay healthy and safe. All travelers to areas with Zika should prevent mosquito bites. Because Zika during pregnancy can cause serious birth defects, pregnant women should not travel to areas with Zika. It can also be spread by a man to his sex partners, so travelers should use condoms if they have sex. If you're visiting an area with Zika, remember essentials like insect repellent, long-sleeved shirts and long pants, and condoms.

Last week Health Department staff set up 10 mosquito traps around the North Shore. *Aedes aegypti* are more likely to spread Zika and are found in warmer climates, although *Aedes albopictus* also have the potential to spread it. *Aedes albopictus* have been found in Illinois and Michigan, so we are partnering with researchers from UW-Madison to do surveillance in our area for these mosquitos.

Find out the latest on Zika at the CDC's website: <http://www.cdc.gov/zika/>

Last week at the North Shore Health Department

Staff partnered with the Milwaukee Health Department and UW-Milwaukee to participate in a regional full scale bioterrorism exercise, and practice delivering preventative antibiotics to our population in case of an aerosolized Anthrax attack. Local media covered our exercise, including this segment on Fox 6 news:

<http://fox6now.com/2016/06/14/there-are-different-levels-of-terror-health-officials-prepare-for-the-threat-of-biological-weapons/>

Staff partnered with the North Shore Fire Department, Shorewood Recreation and the Shorewood Police Department to present the First Ride program at Shorewood High School. This program teaches early balance skills to enable young children to learn to ride a two-wheeled bike.

Upcoming Immunization Clinics (appointment required)
